Bayesian Neural Networks

Blair, Taylor Sorgmon, Ava Conor

March 31, 2024

Abstract

Bayesian Neural Networks are...

Contents

1 Introduction

1.1 History

1987 The patent a 'Method of providing digital signatures' is filed by Ralph C. Merkle[**merkle-pate**

1999 The original patent expires.

2009 Bitcoin uses Merkle Trees for 'block header commitment.'[**friedenbach_alm_2017**]

2009 BitTorent uses Merkle Trees for data integrity[**bep30**].

2 Neural Network

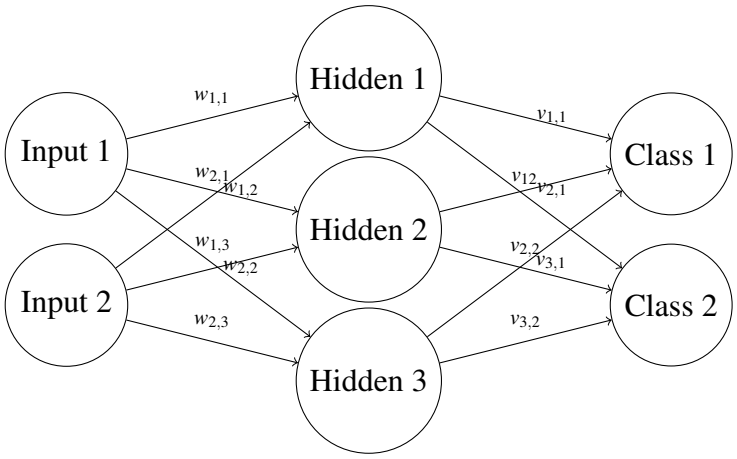

Figure 1: Example neural network

Neural networks....

2.1 Convolutional Neural Networks

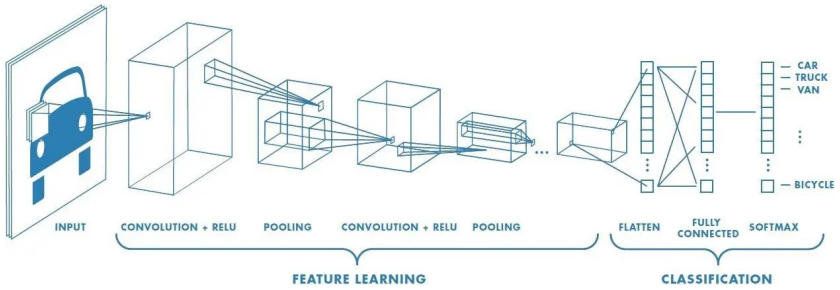

Figure 2: CNN pipeline [2]

Convolutional neural networks (CNN) are a type of neural network that is better suited for image recognition. Instead of reading the entire image a CNN slides over the image...

The result is that the neural network trains faster..

3 Bayesian Neural Networks

Bayesian neural networks take the

3.1 Bayesian Conolutional Neural Networks

Same principle...

4 Simulation

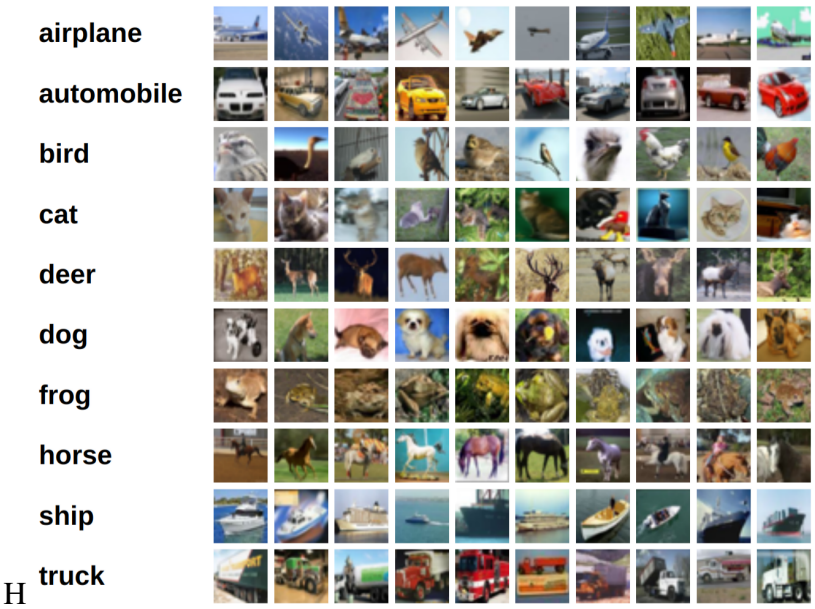
We use a BCNN implementation from Github based on work from ... [4] [3]

4.1 CIFAR-10

The CIFAR-10 dataset...

4.2 Hyperparamaters

We used the following hyperparamaters for training



H

Figure 3: Example CIFAR-10 images [1]

Hyperparameter	**CNN**	**BCNN**
Epochs	500	500
Learning Rate	....	May be higher (0.01 - 0.1) due to simpler structure
Regularization	L1/L2 weight decay or Dropout common to prevent overfitting	Can benefit from Dropout, but weight decay might be less crucial
Optimizer	Adamw	Adamw

4.3 Results
